		<p>There are temperature checks when using the site.</p> <p>Anyone that develops symptoms of Covid-19 whilst at the site to go straight home, to self-isolate and order a test; if they need to be collected, they can wait somewhere away from others; if they are having difficulty breathing to call 999 and tell the operator that they are having difficulty breathing and have Covid like symptoms)</p> <p>NHS Covid-19 testing is available via the NHS testing and tracing webpage or by dialling 119 (or dial111 if they show signs.</p> <p>Risk assessment sent to just host hirers and available on web page.</p>				
Checking for temperature	Participants and staff	Use temperature camera from Bouygues	On loan from Bouygues.			

It is important you discuss your assessment and proposed action with employees and their representatives. A risk assessment is only effective if you and your employees act on it. You must follow through with any actions required and review it on a regular basis. You should review your risk assessment if you think it may no longer be valid e.g. following an accident/incident, or if there are significant changes to the hazards in your workplace, such as new equipment or work activities. You should consider, at a minimum, an annual review of your assessment. Risk assessment guidance is available for further information and advice on carrying out a risk assessment.
